**Re: DAMM Cellular Systems A/S REACH Statement
SB/BS42x and BS41x product families**

Dear Customer

REACH is a European Union regulation concerning the Registration, Evaluation, Authorisation and restriction of Chemicals. It came into force in 2007 and replaced a number of European Directives and Regulations with a single system.

The main aim of REACH is to improve the protection of human health and the environment whilst maintaining the competitiveness and enhancing the innovative capability of the EU chemicals industry.

REACH requires article suppliers to inform recipients if an article contains a Substance of Very High Concern (SVHC) in excess of 0.1% by weight.

DAMM Cellular Systems A/S (DCS) have not been informed by any of their suppliers that any of these substances are present in the materials we use in our products, including packaging and shipping materials. DCS manufacturing also complies with the REACH requirements. Therefore, DCS products do not contain any of these SVHC in excess of 0.1% by weight, and DCS complies with the REACH Directive as a Downstream user; and thus, DCS does not submit any information to ECHA's SCIP database*.

We trust that the above will satisfy your enquiry into DCS compliance with REACH regulations.

Best regards,
DAMM Cellular Systems A/S

Morten Elkjær Christensen
COO
